# 6 REASONS

## THAT MAKE US THE PREMIER CHOICE

### INTELLECT & EXPERIENCE

Highly skilled professionals who possess expertise in diverse Business and Technology areas make up the Business Technologies team to provide world class service, we employ the best technicians, adhere to proven methodology, provide superior client service and become a true business partner in every project.

### OUR APPROACH

Our Roadmap to development is a collection of eight steps, each of which has its own significance.

- ✓ Data Mining
- ✓ Forming a sketch
- ✓ Designing
- ✓ Making a blue print
- ✓ Constructing
- ✓ Testing
- ✓ Deployment
- ✓ Maintenance & Upgradation

### COMMITMENT TO QUALITY

We believe in Quality service and our approach has been designed to provide the same. We listen carefully to our clients and provide space, time and materials according to agreement for the project. We are proud of our Technical and Creative capability and this emerges from taking time to get it right. Our Quality Assurance Department tests throughout the process to ensure that the project will be successful.

### ON TIME DELIVERY

We invest the time up-front to clearly understand your needs and then manage projects to ensure they are delivered on time and within budget. This methodology expedites rapid successful implementation, limits uncertainty and keeps the customer always aware of development progress at our end.

### COMPETITIVE PRICING

We render services to our clients at a very competitive price and depending on the type of client engagement we offer them the most suitable pricing model structure which could either be fixed price based, time and effort based or a dedicated offshore team model.

### TRACK RECORD

We have handled small - large scale projects and have over the years implemented solutions for numerous organizations of all sizes. Our growing list of satisfied customers' not only act as our excellent references but are also a source of our repeat business.

# SERVICES

Expertise, thorough knowledge and firsthand experience along with strong Industry specific research skills help us in analyzing, designing and implementing world class solutions.

# ORACLE SERVICES

HYPERION & ANALYTICS | HYPERION PLANNING | HYPERION FINANCIAL  
ESSBASE | BI & ANALYTICS SERVER | DATABASE | E-BUSINESS SUIT

## HYPERION PLANNING

The process of preparing for the future is planning. Planning is deciding the best alternatives among others to perform different managerial operations in order to achieve the pre-determined goals.

Organizations initially set their goals or targets and plan accordingly. Hence, we define planning as the set of activities to achieve goal in preparing the future.

## HYPERION PROFITABILITY & COST

Profitability Costing is the concept of assigning all costs incurred by a company to the various products or relationships the organization maintains in an effort to determine which products or relationships are the most profitable. This information can be utilized to help better position the company in the future by recognizing which types of activities are beneficial to the organization and which are not.

## HYPERION FINANCIAL

Oracle Hyperion Financial Management is a comprehensive, Web-based application that delivers global financial consolidation, reporting and analysis in a single, highly scalable software solution. It provides financial consolidation and reporting that enables you to rapidly consolidate and report financial results, meet global regulatory requirements, reduce the cost of compliance, and deliver confidence in the numbers.

## ORACLE ESSBASE

Essbase is our market-leading multi-dimensional database management System(MDBMS) that provides a multi-Dimensional database platform upon which to build analytic applications. It is an OLAP Server which provides adaptable data storage mechanisms for specific types of analytic and performance management applications.

PLEASE VISIT OUR WEBSITE FOR MORE INFORMATION

## BUSINESS INTELLIGENCE

OBIEE (Oracle Business Intelligence Enterprise Edition) is a BI tool to gather, store, and analyses the data for enterprise reports, dashboards, scorecards and ad hoc analysis. OBIEE is a multiple server architecture which uses Siebel Analytics technology to separate data access and presentation elements for analysis.

## ORACLE DATABASE

Oracle database products offer customers cost-optimized and high-performance versions of Oracle Database, the world's leading converged, multi-model database management system, as well as in-memory, NoSQL and MySQL databases.

## E-BUSINESS SUIT

Oracle Hyperion Financial Management is a comprehensive, Web-based application that delivers global financial consolidation, reporting and analysis in a single, highly scalable software solution.

# DATABASE SERVICES

ORACLE | DB2 | MYSQL | POSTGRESQL | SQL SERVER | ESSBASE

## ORACLE DATABASE

Oracle Database is the world's leading converged, multi-model database management system and the database products that are offered by Oracle are cost optimized and cost effective giving high performance. Oracle database is used for running online transaction processing, data warehousing and mixed database workloads.

## MYSQL

MySQL is an open-source relational database management system. Its name is a combination of "My", the name of co-founder Michael Wideness's daughter, and "SQL", the abbreviation for Structured Query Language.

## IBM DB2

Db2, or Database 2, is a set of relational database products built and offered by IBM. Relational databases enable enterprises to create declarative data models accessible via queries. For this purpose, IBM invented the popular and now standardized Structured Query Language (SQL)

PLEASE VISIT OUR WEBSITE FOR MORE INFORMATION

## POSTGRESQL

PostgreSQL is a powerful, open source object-relational database system that uses and extends the SQL language combined with many features that safely store and scale the most complicated data workloads.

## ORACLE ESSBASE

Oracle Essbase is a multi-dimensional database management system that is specifically to provide the multi-dimensional database platform which is used to build analytical applications. If we see it on broad spectrum, it is a business analytics solution that uses a specific architecture for analysis, reporting, and collaboration. This architecture is prone to be Proven, Flexible and Best-in-class. Thus Essbase is delivers instant value and greater productivity for your Business users, analysts, and decision-makers, for all sorts of Business within your industry or firm.

## MS SQL SERVER

Microsoft SQL Server is a relational database management system developed by Microsoft. As a database server, it is a software product with the primary function of storing and retrieving data as requested by other software applications—which may run either on the same computer or on another computer across a network.

# SAP SERVICES

Our web development packages are flexible and tailored to meet your individual goals. You can compare our design plans and suit the best one for you from the multiple options given.

The more you think about them, the better you can plan a

# OUR SUCCESS STORIES

HUTCHISONPORTS | AZIZI BANK | PAKISTAN STOCK EXCHANGE  
LIAQUAT NATIONAL HOSPITAL | SILK BANK | PIA | BLOOMBERG  
CONSUMERS ENERGY MICHIGAN | DEVON ENERGY

Our story with Hutchison Ports began with severe downtime incident when Hutchison Ports contacted support to get its critical reporting database back up and running smoothly. This matter was configured properly with the assistance of competent professionals at us took just less than a day. This created a good impression about us and then in order to take higher quality services, this company switched its all Oracle managed services entirely to Burkitech support. Now, these full-fledged services include the Operating System Configuration, DBA work, Performance Monitoring, Database Tuning, and Query Writing.

Azizi Bank is the largest Bank in Afghanistan and currently we are upgrading their core banking infrastructure and are very closely involved in the Migration of Database from the old and obsolete hardware of SPARC T5 and T8 which belongs to Sun. So, this is regarded as big achievement in the international banking sector, which trusted us and provided us a huge contract.

Pakistan Stock Exchange is the national organization where millions of transaction are performed on daily basis and thus it's not an easy deal to manage their database. But the team of competent professionals at Burkitech took it as a challenge and took every major and minor step to cop-up with upcoming issues and circumstances. Now the motivated team is successfully managing the PSX database for smooth operation.

**Liaquat National Hospital  
& Medical College**

When Burkitech started working with Liaquat National, it was facing big tracking problems such as aging, work force tracking, AP to GL, AR to GL, On-going invoices etc. We are proud to provide services as Techno-Functional for Oracle EBS Apps, which specifically design and manage all application reports with Oracle Reports & Oracle BI such as Finance, Supply Chain Management and HRM.

Silk Bank is known with its name and they needed proficient service for handling their Database and relevant issues in a very well managed way. Professional and competent team at Burkitech successfully handled, provided the Oracle EBS Functional services and Oracle Database services. Now the team is managing the all functional requirements and database monitoring smoothly and effectively.

Burkitech has one of the successful track record with PIA, as we have implemented the Oracle Hyperion Planning in PIA. It is the best centralized planning, budgeting, and forecasting solution that work perfectly to integrate

different aspects in order that business predictability is improved. Before we started working with them,

# Bloomberg

We implemented 4 SAP HANA scale outs. Each with 1 TB of memory for their BW loads. This is configured as 5+1 configuration This is based on Broadwell and the backend storage was Hitachi HUS VM. We installed RHEL 7.4 with HANA 2.0 SPS 2 on all nodes, furnishing a single HANA DB.

Other than scale outs we installed and configured 16 scale ups with different memory sizes. Later we provided upgrade support to the customer

We provided 3 scale outs in a 6+1 configuration. Each node is 1.5 TB of memory. This is configured in SAP HANA TDI solution

We provided scale ups of variable memory sizes ranging from 512 to 6 TB memory sizes on SLES environment

# CLIENTS FEEDBACK

“ WHAT OUR CLIENTS SAYS ABOUT US ”

**Mehmood Siddiqui**  
Chief Information Officer

BurkiTech is our main vendor for support to EBS (Oracle Financial System) and DBA services outsourced. Over the last 3 years we have engaged BurkiTech a number of times and both for EBS support and temporary replacement for our DBAs. BurkiTech is a trusted service provider and has always sent qualified resources to troubleshoot or assist PSX ITD team in database related issues. We are satisfied with their performance and would be happy to recommend BurkiTech.

**Imtiaz Shiakh**  
Head of I.T & Infrastructure

Really appreciate the services which were provided by Burki Technologies. Team is competent with extensive technical skills. Supported and worked with us with full dedication and guided bank's team properly.

**Imtiaz Shiakh**  
Head of I.T & Infrastructure

We took the services of many vendors, with regard to infrastructure and database point of view. However, I was really happy when I got a chance to take services from Burki Technology Pvt Ltd. They provided tremendous support from storage Migration of IBM XIV to IBM Storwize V5000 and data Migration of IBM Power 8 servers. They have expert resources in databases and Applications. The beauty of Burki Technology is that they provide all services from a single-window platform. This is one of the big reasons for preferring Burki Tech PVT LTD.

**Aleksey Yefremov**  
Assistant Manager

It's been a pleasure to work with Burkitech. They played a consulting role with Oracle Hyperion PBCS, the Consultancy Team of Hyperion has good concepts concerning PBCS mechanisms like data forms, business rules, etc., and had patience when explaining difficult concepts. We were able to resolve many issues thanks to Burkitech. Their communication has been great as well. We look forward to working with them again.
